I am a Front-End Developer with a software engineering background and experience transitioning from SEO and digital marketing. I am Passionate about building responsive, user-friendly web interfaces, my mindset is to learn continuously and stay up to modern development practices.

EXPERIENCE

OCTOBER 2019 – MARCH 2020

FRONT END INTERN, CRYPTEX SOLUTIONS

I worked as a front end developer intern for 5-6 months, working on HTML, CSS, Bootstrap, JavaScript and WordPress.

FEBRUARY 2021 – JUNE 2022

ERP EXECUTIVE, ARTISTIC MILLINERS

Worked as a management trainee and then qualified to work as an ERP Executive.

JUNE 2023 – JULY 2024

SEO AGENT, TECNO CLOUD

Worked as an SEO agent, worked on various E-commerce websites around keyword research, content publications, image, and content optimization, etc.

OCTOBER 2021 – PRESENT (Part Time)

COPYWRITER, FREELANCE OUTSOURCER – FIVERR, UPWORK

I am working as a freelance research writer on Fiverr. Recently I lost my Upwork Account. I have worked for many clients from all over the world. I have recently finished working as a how-to article writer for officedemy.com and creative story writer for lensa.com

CURRENTLY LEARNING WEB DEVELOPMENT

I am actively learning and honing my skills in web development to become a proficient front-end engineer. I have developed a strong understanding of HTML5, CSS3, and Vanilla JavaScript. Recently, I gained hands-on experience with styling frameworks such as LESS, SCSS, Bootstrap, and Tailwind CSS. Additionally, I have started exploring React.js and plan to advance into Next.js soon.

PROJECTS

(Hobby / Learning projects)

1. [Weather APP \(JavaScript\)](#)

I developed a real-time weather fetching App that works fast, I added some additional small features to add value in project.

2. [Cafe App \(React\)](#)

I created a Café food ordering website and tried to keep it as real as possible. I utilized Context API in it and handled all data and props in an organized and optimized way.

3. [Quiz App \(JavaScript\) - Responsive](#)

I developed a random quiz generator with 20 categories, and some more features, all the additional features are from my mind, not copied from an online tutorial.

4. [Text Utility App \(React\)](#)

I developed a text utility app using React; the idea was from an online tutorial, but I tried to add many additional features on my own.
